

CAPABILITIES STATEMENT

We support government agencies with proven design-build marine construction, commercial diving, transportation, and specialized marine services. With 30+ years of expertise, Precon Marine delivers the crews, equipment, and expertise for complex projects on, under, and alongside the water.

Our Capabilities

Proven Design-Build Marine
Capabilities for Critical Missions

Barge & Tug Fabrication

Design-build fabrication of ABS-class, deck, crane and sectional barges, along with tug and push boats built for demanding marine operations.

Cathodic Protection

Expert installation of cathodic protection systems designed to protect critical marine infrastructure from corrosion. Our experienced crews combine specialized knowledge, proven installation techniques, and a strong commitment to safety and quality.

Commercial Diving

Comprehensive commercial diving services for complex underwater construction, inspection, repair, and recovery operations. Our experienced dive teams and ROV capabilities support projects in deep water, extreme conditions, and challenging marine environments worldwide.

Emergency Repairs

24/7 emergency marine repair services with rapid mobilization to assess damage, stabilize structures, and restore critical waterfront infrastructure. Our experienced crews, specialized equipment, and marine construction expertise allow us to respond safely and efficiently to even the most complex emergency situations.

Marine Maintenance & Repair

Comprehensive marine maintenance, repair, and dry-docking services designed to keep vessels, barges, and marine equipment operating safely and efficiently. Our experienced crews provide structural repairs, welding, steel replacement, hydraulic and piping work, coatings, tank cleaning, barge modifications, and specialized security barrier maintenance.

Salvage & Dive Emergencies

Rapid-response salvage and dive services for marine incidents requiring immediate underwater expertise. Our teams are equipped for vessel and cargo recovery, underwater assessment, debris removal, and complex salvage operations in challenging marine environments.

Marine Transportation Services

Reliable marine transportation for ocean towing, project cargo, time charters, and specialized marine logistics. Our fleet of tugs, barges, and support equipment handles everything from bulk materials to oversized cargo safely and efficiently.

Horizontal Directional Drilling (HDD)

Proven horizontal directional drilling (HDD) solutions for marine pipelines, underwater utility crossings, and subsea cable installations. With decades of experience, our team delivers precise, efficient results for complex marine environments while minimizing environmental impact.

GOVERNMENT EXPERIENCE

Precon Marine brings decades of proven performance supporting government agencies through complex design-build marine construction, repair, infrastructure, and waterfront projects. Our experience demonstrates the capabilities, equipment, and expertise required for demanding marine operations.

Government Contract Experience

Proven Performance on
Mission-Critical Marine Projects

PROVEN FEDERAL MARINE EXPERIENCE

U.S. NAVY— Fender System Repairs – Lift Slip, Wharf & Crane Infrastructure

Marine repair and construction supporting critical waterfront infrastructure.

U.S. NAVY / NAVSEA — Port Security Barrier Inspection, Repair & Reinstallation

Inspection, repair and installation supporting secure naval facilities.

U.S. NAVY / NAVFAC — Kings Bay Caisson & Wharf Repairs

Heavy marine construction and repair of critical waterfront structures.

U.S. ARMY CORPS OF ENGINEERS — Craney Island Northern Shoreline Revetment – Phase III

Shoreline stabilization and marine construction for coastal infrastructure.

U.S. ARMY CORPS OF ENGINEERS — Poplar Island Lateral Expansion

Marine construction supporting a major island restoration and expansion project.

U.S. ARMY CORPS OF ENGINEERS — Elizabeth River & Hoffer Creek Oyster Restoration

Marine construction supporting habitat restoration and environmental improvements.

U.S. COAST GUARD — Light Structure #32 Marine Construction – New Jersey

Marine construction supporting navigational and coastal infrastructure.

CONTRACTING INFO

Business Classification: For-Profit Corporation (Subchapter S)

Small Business Status: NAICS-Dependent

UEI: WJCMDKP7JJY3

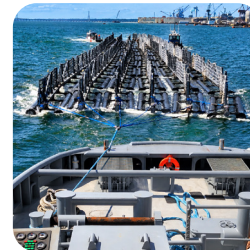

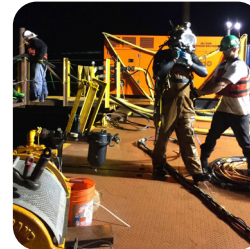

CAGE Code: 1D8J7

Primary NAICS Code: 237310 – Highway, Street, and Bridge Construction

SAM.gov Registration: Active

Registration Expiration: March 27, 2027

Additional NAICS Codes: 237990, 541330, 237110, 238110, 483211, 532412, 532411

SAMPLE PROJECTS

> **U.S. Navy** – Fender System & Waterfront Infrastructure Repairs

> **NAVSEA** – Port Security Barrier Repair & Maintenance

> **NAVFAC** – Kings Bay Caisson & Wharf Repairs

> **USACE** – Craney Island Shoreline Revetment

> **USACE** – Poplar Island Expansion

> **USACE** – Oyster Restoration & Marine Construction

> **U.S. Coast Guard** – Marine Infrastructure Construction
